

COOKIES

Cookies are small data files that a website stores on your computer's hard drive to keep track of certain information. They enhance your online experience by remembering your preferences on a particular site, such as personalized settings.

Cookies are widely used across the internet as a common practice to offer helpful features to users. While cookies do not directly identify individuals, they do recognize your device. Most web browsers are set to accept cookies by default.

If you choose, you can adjust your browser settings to block cookies. However, doing so may limit your ability to fully utilize certain features of a website.

Our use of cookies

At this moment in time, we do not use cookies.
